WHAT IS EED?

RESISTANCE | RESILIENCE | RECONCILIATION

Emergent Essence Dynamics™ harnesses a person's innate Resilience to reconcile fear-based patterns, converting Resistance and Self-Sabotage into a liberated state of creativity and well-being. Drawing from fields as diverse as Psychology & Neuroscience, Quantum Physics & Buddhism, Acting & Improvisation, EED breaks new ground in leadership and coaching methods using fractal dynamics to amplify Resilience, release Resistance and Reconcile core conflicts. EED's simple and pragmatic model significantly enhances individual & team coaching, facilitation, therapy, and conflict resolution with applications extending to the healing arts, leadership development, mediation, consulting, sales and more.

"My experience with EED has been brilliant and totally amazing! Transformative, intense, empowering and reconciling are the words that come to mind."

— **Sandra Reupke-Sieroux**, Coach/Consultant – Hamburg

WHO IS EED FOR?

EED attracts people globally from diverse backgrounds and disciplines, as its unifying model has applications for a wide range of professions. Most notably, EED attracts coaches for individuals and teams, leaders, consultants, managers, facilitators, healers, mediators and more.

The training also contains a high element of personal growth, resulting in better relationships, expanded awareness, stronger leadership and a restoration of well-being.

Are you a Coach?

EED increases the range, speed and precision of a coach, quickly cutting through resistance and self-sabotage, so the coach can magnify the client's own resilience and creativity. On the verge of breakthrough, a client can become stubborn, evasive, or even shut down. EED helps the coach neutralize each layer of resistance with razor-sharp focus to uncover the resilience that will ultimately empower the desired breakthrough. Coaches can even reintroduce past resistance to help reinforce the integrity of the client's newfound strength – ensuring a solid and sustainable transformation.

Are you a Leader?

EED gives leaders and facilitators the tools to navigate complex relationships cleanly and simply. Not only does EED sharpen and expand a leader's presence, but it teaches the leader how to consciously direct their own impact to inspire, influence and transform the diverse dynamics they work with. Leaders learn how to convert disruptive patterns into emerging resilience, capturing the group's creative impulse as they work through conflicts, resistance and frictional moments. Understanding team dynamics on a fractal level, the EED leader reconciles problems efficiently to restore top team performance with greater unity and enhanced vision.

Are you a Consultant?

EED helps consultants drill down quickly to the most important issues that will facilitate change more smoothly and efficiently. They learn to read clients on much more subtle levels to target hidden needs and identify the unique strengths that will reinforce the client's ability to flow and adapt with the change process, without losing momentum. EED's specialized tools enhance the consultant's ability to deepen relationship and interpret the client's demands with flexible communication skills, minimizing resistance for more productivity, and cultivating a solid foundation for creative strategies to emerge.

MODULE 1: REVEALING ESSENCE

THE BRILLIANCE OF RELATIONSHIP DYNAMICS™

**Pinpoint the dynamic driving each moment.
Shift the dynamic to easily transform any outcome!**

Emergent Essence Dynamics™ frees the practitioner to work more cleanly and provocatively using a full, dynamic range with much stronger presence. The practitioner cuts through resistance with speed, courage and precision, easily targeting the fundamental beliefs that currently drive each moment.

EED Module One: Revealing Essence introduces you to Relationship Dynamics™, a powerful tool that transmutes the working relationship into a parallel process – any dynamic that sparks up between you will always reveal the deeper hidden issues at play. The Relationship Dynamic becomes a live arena for transformation, safely playing out each issue as they emerge, and concretely shifting them in real-time. You no longer need a “topic”, “problem” or “story” to spark transformation – The Relationship Dynamic itself IS the transformation! The real story lives in the subtle reactions and key behaviours provoked by the Relationship Dynamic. It consistently opens a dimension of such truth that you'll never need to depend on “topics” again!

What you will learn:

- 7 Elements of a *Relationship Dynamic™*: Reveal fractal patterns that drive each moment
- Practice 6 Levels of Awareness that increase intuition and sharpen precision
- Redirect choices and behaviours with Archetypal Resilient Self / Pathetic Self
- Introduction to the 10 Essential Qualities™ and how to activate a Resilient flow-state

How EED enhances your work:

- Cut through tough resistance, dramas and smokescreens
- Shift fractal-based patterns and behaviours without even needing a topic!
- Anchor resilience, creativity and well-being even in the presence of fear or resistance

3-Day Training

Friday, Saturday, Sunday

09:30 – 18:00 each day

ICF Accredited: 20 CCEUs

MODULE 2: EMBODYING ESSENCE

THE ART & BRILLIANCE OF SHAPE-SHIFTING

Completely revolutionize the way you work with Resistance, stubborn patterns and limiting beliefs

Despite a person's genuine desire for fulfillment and transformation, they are constantly caught in an internal conflict between hidden Selves in opposition. These inner Polarity Dynamics™ account for conflicting values, contradictory beliefs, fear-based patterns and false resonance. The EED Practitioner untangles these polarizing dynamics while restoring a foundation of resilience, creativity and well-being. When we reconcile inner polarities, we can pro-actively reconcile external conflicts and challenges.

EED Module Two: *Embodying Essence* teaches you advanced applications of Relationship Dynamics™ to manage conflicts, neutralize high resistance and release stubborn repetitive patterns. In real-time, you have people actively embody the polarity driving their situation to test out new patterns that radically shift and neutralize the dynamic at play. Further applications of the EED Model include using Enneagram Archetypes, Polarity Dynamics™, Chaos Theory, Embodied Role-Play, Advanced Anchoring Techniques and you are introduced to the 7th and 8th Levels of Awareness.

What you will learn:

- Polarity Dynamics™: How Pathetic Selves work in pairs to cause inner conflict & resistance
- Shifting Polarities: 5 Strategies to PLAY the dynamic and INTERRUPT the polarity midstream
- Reconciling Polarities: How Pathetic Selves can be reconnected back to Essence
- Peel away layers of resistance using Body Wisdom and Emotional Intelligence techniques
- 10 Essential Qualities™: reconcile polarizing beliefs to restore wholeness and well-being

How EED enhances your work:

- Sustain high resonance and magnetize resilient states to trigger back at will
- Easily spot false resonance driven by hidden Pathetic Selves (fear-based patterns)
- Neutralize resistant patterns using Enneagram Archetypes and Polarity Dynamics™
- Use Positive Endowments™ to shift conflict and connect relationships back to resilience

3-Day Training

Friday, Saturday, Sunday

09:30 – 18:00 each day

ICF Accredited: 20 CCEUs

Pre-requisite: EED Module 1

MODULE 3: CONDUCTING ESSENCE

THE ACT OF CREATING BRILLIANT NEW REALITIES

**A truly ground-breaking experience and a MUST
for all coaches, consultants, leaders and healers!**

The EED Training Series culminates by integrating its full range of techniques to build a Success-Oriented mindset from the ground up. Applying specialized tools that capitalize on each stage of the Creative Process, from seed idea to manifested result, the EED Practitioner maintains high motivation and deep investment as new narratives are constructed by design, infused with passionate drive, iron will and clear intention.

"This course is indeed life-changing and I wouldn't want to have missed it!"

– **Silvia Wolf-Paetow**, CPCC - Heidelberg, Germany

EED Module Three: Conducting Essence examines how to consciously reconstruct ourselves internally, in order to pro-actively influence, shape and shift our external reality. Here we use the most advanced and creative applications of Relationship Dynamics™ – interacting on a super-receptive level to access the very structure of our essential nature. This fluid state of “plasticity” sets the foundation for creating new realities where we reconcile negative patterns, remold fundamental beliefs, and reprogram self-defeating habits with clear intention – anchoring potent structures and strategies that set up rewarding action. This work is both revolutionary and amazingly simple, aligned with natural cycles that work on the fractal level.

What you will learn:

- Success-Oriented mindset: reprogram self-defeating thinking, language and behaviour
- Hero's Journey: map a person's own unique transformational process and creative cycle
- Essential Purpose™: reconcile past, present and future to liberate momentum and agility
- 9 Elements of Intelligent Action™: structures that increase flexibility, creativity, and resilience during any challenge or setback, minimizing loss of drive or focus

How EED enhances your work:

- Explore multiple levels of consciousness and creative intelligence with Somatic techniques
- Access states of Neuroplasticity to rewire triggered beliefs and self-defeating patterns
- Reinforce strategies with Compelling Desire, Intentional Focus and Essential Purpose™
- Transform relationships "remotely" using one person to reconcile a polarized dynamic and liberate both people!

3-Day Training

Friday, Saturday, Sunday

09:30 – 18:00 each day
